JOB MARKET PAPER

Monopsony Power and Creative Destruction
With Filip Mellgren and Jonas Overhage.

Revise and resubmit, American Economic Journal: Macroeconomics.

An endogenous growth model with heterogeneous firms shows how monopsony sustains less productive innovators and raises growth while reducing static productivity.

WORKING PAPERS

What Is Automation? Evidence on the Role of Capital Heterogeneity from Swedish Data
With Chek Yin Choi.

The Wrong Entrepreneurs? Family Wealth, Talent, and Aggregate Outcomes
With Sofia Giovannetti.

Beyond Individual Returns to Geographic Mobility: A General Equilibrium Perspective
